Sir:

IN THE SPECIFICATION

The Examiner objected to the expression "packed density" as being unclear as to know whether or not it is equivalent to the "packed bulk density" referred to in the operating instructions.

The Applicants hereby confirm that within the meaning of the invention the expression "packed density" is equivalent to "packed bulk density".

In response, the Applicants herewith join a substitute specification replacing the specification as filed and in which the expression "packed density" is replaced by "packed bulk density".
